National Benchmark & Collegewide Comparison

- The percentage distribution for bachelor's degree students enrolled in education programs in the United States (USDOE, 2016) indicates that 73% of the enrollment was white, 12% black, 11% Hispanic and 4% Other. Similarly for master's programs 71% white, 14% black, 10% Hispanic and 5% other. Buffalo State's advanced programs are less inline with the national data, however, they have greatly improved from 2014 to 2019. e.g., currently white enrollment is 84%, which has decreased since 2014 when it was 92%.

- Buffalo State's most recent initial program composition data (2019) aligns very closely to the national data (75% white, 12% Black, 8% Hispanic).

- The percentages of non-white candidates has increased since 2014.

- Buffalo State's diverse student enrollment has increased significantly over the past 5 years, going from 43% nonwhite in 2014 to 55% in 2019. These same results were not mirrored in the graduate program data, where although the percentage of black and Hispanic students enrolled has increased since 2014, overall non-white enrollment has decreased significantly (46% and 25% for graduate enrollment).
